BUBBLES OF TIME — PAST. NOW. FUTURE.

**19 April | 4 p.m.–8 p.m.** – RSVP required

**Palazzo Crespi, Corso Giacomo Matteotti 1, Milan**

Join us in the heart of Milan at the stunning Palazzo Crespi, where we explore design through time – a place where heritage, the present, and future visions come together, bubble by bubble.

KALDEWEI is pleased to be a guest exhibitor at Portaluppi's Palazzo Crespi – a landmark opening its doors to the public during Salone for the first time. Piero Portaluppi stands as a singular figure of his era, renowned for a modern, elegant, and formally refined architectural language. His work blends elements of Italian Rationalism with a sensitive balance of tradition and innovation.

The exhibition concept is developed by Parasite 2.0 and curated by Forgotten Architecture. More details will follow in March. We look forward to sharing this journey through time with you.

Yours,  
The KALDEWEI Team
