

**KALDEWEI**

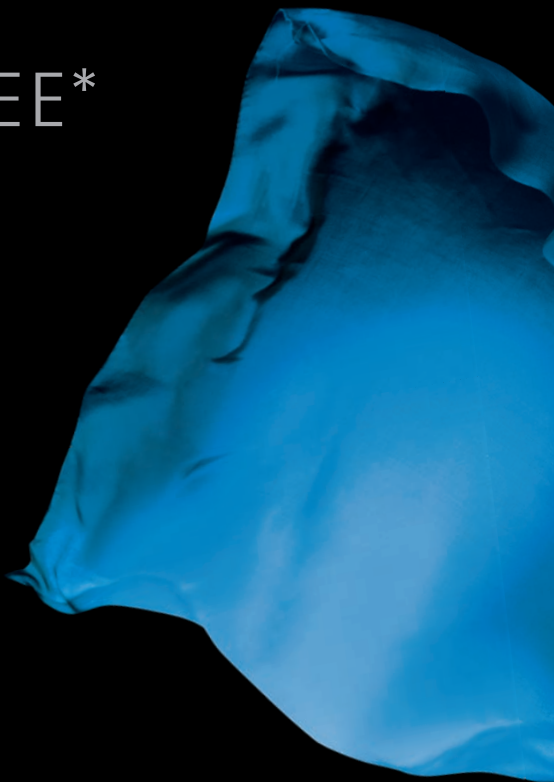

THE CLASSIC OF TOMORROW  
CAYONO 5ft. - the new bath standard

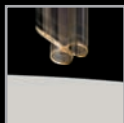

# KALDEWEI STEEL ENAMEL

*with 30 years*  
GUARANTEE\*

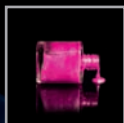

Steel and glass – two entirely authentic and natural materials, used for centuries, and each with its own inherent material properties. Steel signifies strength, toughness, robustness and optimum ductility. Glass is highly resistant to chemical or thermal stress and has an excellent appearance. KALDEWEI steel enamel combines robust steel and tough glass to form an inseparable bond harnessing the strengths of each material in perfect symbiosis. As a pioneer consistently pushing the boundaries to make the good even better, KALDEWEI has steadily advanced, refined and optimised the special formula and manufacturing processes of KALDEWEI steel enamel for almost a century now. KALDEWEI steel enamel guarantees lasting quality that remains visible, tangible and irresistible day after day.

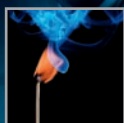

# Totally INCOMPARABLE

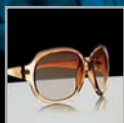

**Scratch, abrasion and impact resistant** – KALDEWEI steel enamel is much harder than acrylic and highly resistant to mechanical stress.

**Acid and chemical resistant** – perfume, cosmetic and medicinal bath additives and common household detergents will not harm the surface.

**Heat resistant** – burning and glowing objects such as cigarettes or candles do not leave marks on the surface.

**Colour fast and UV light resistant** – KALDEWEI steel enamel retains its original colour without fading or yellowing.

**Dimensionally stable** – KALDEWEI baths and shower trays hardly expand at all in temperature fluctuations, thereby minimising the risk of cracked joints or structural damage from moisture penetration.

**Hygienic and low maintenance** – the glass-hard surface is hygienic and easy to clean.

# ALL IN ALL - INCOMPARABLE

## FROM INSTALLATION TO REMOVAL

### INSTALLATION PROCEDURES

- No additional installation procedures are necessary (protective frames, support slats, stabilisation elements, etc.) due to unsurpassed stability
- On KALDEWEI baths and shower trays there are aligned mounting aids for quick installation, optimal noise insulation and durable sealing

### EXPANSION OF MATERIAL

- Barely any expansion during temperature fluctuations therefore no danger of cracks in the joints or structural damage (e.g. through moisture penetrating the masonry)
- Elastic joint seals adhere without pre-treatment

## GUARANTEE, LONGEVITY AND SAFETY

### GUARANTEE\*

- 30-year KALDEWEI guarantee according to the warranty documents on all baths and shower trays made out of KALDEWEI steel enamel
- 30-year KALDEWEI guarantee on the easy-clean finish

### DURABLE AND LONG-LASTING

- With proper care (wiping dry for prevention against lime residue), a bath or shower tray made out of KALDEWEI steel enamel still looks almost the same decades after it was first used
- Product life expectancy is at least 30 years (see KALDEWEI guarantee)

# BLE – KALDEWEI STEEL ENAMEL

There are lots of good reasons for a KALDEWEI bath or shower tray.

## MULTIFACETED DESIGN

### DIVERSE DESIGN

- KALDEWEI offers over 250 different bath and shower tray models in different colours and equipment types
- KALDEWEI offers special solutions for small bathrooms, barrier-free construction, medical bathrooms, hotel bathrooms, bathrooms in fitness centres and sauna areas

### SLIP RESISTANCE

- KALDEWEI baths and shower trays can be equipped with anti-slip, the anti-slip coating from KALDEWEI

## IAPMO CERTIFICATION

All KALDEWEI bath tubs and shower trays, which are shown in the price list are IAPMO certified.

## SUSTAINABILITY

Sustainable building is the concept of the future. The prerequisite for this is the usage of construction products that are certified in the sense of sustainability according to the IBU Environmental Declaration per ISO 14025. Resource usage, energy requirements and emissions are rated over the entire manufacturing and recycling process. However the product properties also are subject to stringent assessment criteria. In comparison to acrylic baths, KALDEWEI steel enamel displayed an exemplary eco-audit.

# CAYONO

The bath.

When a pioneer introduces a new bath concept, everything has to be perfect: forward-thinking design, uncompromising quality, and sustainable production. With a level base and a generously dimensioned interior, more standing room is achieved for better showering comfort. The bath's full-antislip finish, covering a visibly larger surface area, provides for more safety. The quality is assured through the 30 year KALDEWEI guarantee due to KALDEWEI steel enamel.

# COMFORT. SAFETY. DESIGN

Cayono – the new standard of bath.

- Made of KALDEWEI steel enamel with full-antislip finish
- Modern rectangular bathtub with spacious interior
- The bottom of the bath is flat allowing for very comfortable showering
- Integrated tile flange and panel
- Left (model no. 156) or right (model no.155) version available
- Simple, yet sophisticated. A timeless design that's adaptable to suit your aesthetic needs.
- 60" (1524 mm) x 30" (762 mm) x 14" (356 mm)

# SUPERIOR SAFETY

The new full-antislip for the CAYONO bath.

The newly designed CAYONO bath represents a functional and aesthetic combination of safety and design. A generous amount of full anti-slip enamel is placed in the bathtub in the most ergonomically position. This ensures that getting in and out of the bath is both safe and comfortable. In conjunction with the spacious bathing well the CAYONO is therefore also ideally suited for showering.

## IAPMO

All KALDEWEI bathtubs and shower trays, which are shown at [www.kaldewei.us](http://www.kaldewei.us) are IAPMO certificated.

Also KALDEWEI bathtubs meets ASME and the Canadian Standards.

KALDEWEI is a gold member of the U.S. Green Building Council, the developer of the world's dominant green building rating system, LEED v4. KALDEWEI fully supports this exemplary sustainable building initiative.

All KALDEWEI baths and shower trays are certified under a Type III Environmental Declaration in accordance with ISO 14025 or EN 15804 and may earn credit under a LEED v4 building certification program.

# QUALITY MADE IN GERMANY

KALDEWEI steel enamel.

Californian borax, quartz, Scandinavian feldspar and soda. These are just some of the glass-forming, natural raw materials used by KALDEWEI in its own recipe to produce a special enamel that is permanently fired on to the steel enamel. The surface is guaranteed for 30 years under the KALDEWEI guarantee. It is not only the

combination of steel and enamel that is decisive in this respect, but also the specific thickness of the material. The hygienic and durable surface also convinces in terms of its care properties: cleaning the already easy-care bath becomes even easier with the optionally available easy-clean finish.

•• heat-conductive

•• heat-resistant

•• UV-resistant

•• scratch-resistant

•• impact-resistant

•• chemical-resistant

•• easy to clean - hygienic

•• 30 years

KALDEWEI guarantee

•• ecologically sustainable
